**An Earnest Word to Every Reader** This is the last week at which subscriptions to THE MENACE can be had at the old price of twenty-five cents for forty weeks' subscription.

This is the last opportunity that will be offered under which our readers can send this most vital educational journal at the old low price, to their friends and neighbors who do not yet realize the deadly peril from political Romanism to our free institutions.

This is your last chance to do a great patriotic work at a very small outlay of money. Now listen! Are you willing to make a small sacrifice for the GREAT CAUSE for which Washington sacrificed so much, for which Jefferson dedicated his life, for which Lincoln gave his life, for which the martyrs of this nation might remain nobly free - and true to those principles which political Romanism is today assailing? If you are ready to make such small sacrifices for our republic then here is a suggestion:

Pick out eight Protestant ministers in your town or county and send them each THE MENACE for the next forty weeks. Have you done that? Good! Then are there not eight more you can thus reach? No. Then pick out eight teachers. If these teachers are already getting THE MENACE their subscriptions will be extended. If not teachers, then make a list of editors and doctors, or of judges and lawyers.

Dear friends, here is a great chance to do splendid missionary work. A chance that will never come again. This is the last week of the low subscription rate to THE MENACE. Delay and you will be too late. Send us your lists as you feel able TODAY and you will have done your bit toward making America safe for democracy.

**LETTERS FROM THE FIRING LINE** THE MENACE IN THE PHILIPPINES

THE MENACE circulates widely throughout the world. Its influence is markedly felt in Australia, New Zealand, the Philippine Islands and other remote quarters of the world. We have just received the following typical letter from the Philippine Islands. It is from a government official in the department of Mindanao and Sulu:

"We believe that THE MENACE is THE greatest educational journal of the United States representing in a fundamental way the world-wide cause of true democracy. It should be in every democratic and patriotic home in the English speaking world. I write these lines to express my high regard for your paper and appreciation and gratitude that at this perilous hour in our progress there is such a journal exposing the sophistry and despotism of political Romanism.

"Your paper is international in character and it is wonderful how you succeed in presenting the world-wide efforts of Rome to defeat the end of the great Protestant Reformation and her true daughter, Democracy.

"Permit me to state that your valued journal is highly appreciated out here. Mr. Cepiso Juraibai wrote a long letter calling my attention to the great value of THE MENACE and as soon as I became acquainted with the paper I saw that it was invaluable for us in our work of presenting the principles of democracy and true Christianity."

"Los Angeles, Cal. THE MENACE is great. I am trying to do all I can to interest others for I feel you are doing the most needed work in the land. THE MENACE is first of all educating the people along lines which the public schools should be considering, namely, teaching the children the principles of our Constitution and the Declaration of Independence. Next it is showing our people just why political Romanism is in deadly opposition to our free institutions. Go on! Strength to your right arm."

One, Iowa. I want to be numbered among the 'Immortals.' I have long been a member of the invincible old guard of THE MENACE. No paper is more needed than it is today when it will not be needed. Nothing thrills me more than to read of THE MENACE's victories over the world's foe of liberty, freedom and justice."

"Columbus, Ohio. It gives me great pleasure to work for THE MENACE whenever and wherever I can for I know that in so doing I am

## SENATOR KENYON AND POPE'S LATEST PLEA

Simultaneously with the publication of the latest fulmination of the vatican in behalf of the German autocracies, United States Senator Kenyon delivered a masterly address in the senate which was in fact a complete and unanswerable argument against the latest papal plea reflecting the kaiser's desires.

Senator Kenyon has just returned from the European battlefield and it is probable that a dispatch, published on January 10th, and sent out by the United Press, may have been the immediate inspiration of his remarks. Just here let us say a word about that latest ill-timed utterance.

According to that dispatch "in the judgment of the vatican" the splendid and clear-cut declarations of the war aims delivered by Prime Minister Lloyd George and President Wilson, were bound to prolong the war.

The stand taken by the United States cannot help but make the struggle a harder one if they are lived up to" is the statement. The dispatch further says, "According to the interpretations of vatican officials it is believed that America, England and other allies are making demands that Germany will not accede to and that will therefore prolong the world's strife."

**EVIL EFFECTS OF VATICAN PROPAGANDA** Two facts are boldly suggested by the above latest utterance in the papal pro-German propaganda. In the first place the utterance can have no other influence, insofar as it exerts any influence, than that of disheartening or weakening the enthusiasm and fine spirit of our American soldiers and in thus far, its effects are precisely the same as those the government is combating when they emanate from the traitorous Germans in our midst. In the second place all thinking men and women will see in the two recent liberal utterances thus condemned, by implication, nothing more or less than the terms that are absolutely essential if America and the allies are to adhere to the declarations laid down by President Wilson in his great speech justifying America's entrance into the war and which he, together with the greatest English and French statesmen, has reiterated in the various important statements given to the public since we declared war against the insane upholders of autocratic militarism.

That the dearest wish of Germany and of Austria, no less than that of the unspeakable Turk, is to secure working for a free land and a liberal and just government for our children and our children's children. Keep up the battle on political Romanism and we will soon have restored to us that large respect and veneration for those great principles underlying our free state, liberty of press, speech, and assembly and divorce of church and state which were so jealously guarded and defended by patriots great and small in the early days of the republic. THE MENACE is America's great present-day voice of righteous freedom and justice and it is not only striking terror in the camp of the conspirators against our free institutions but it is awakening sleeping Protestants to a recognition of the deadly peril that confronts us."

"Centerville, Maryland. Please change my address as given below. I regret to give you this trouble but I do not wish to miss a single number of THE MENACE. I am seventy-two years old but I believe I am one of the most active boosters for THE MENACE and I expect to get a number of subscriptions in this place. Your paper should be in the home of every true American who believes in the principles of Washington, Jefferson and Lincoln."

"Portland, Maine. You can count me with you if you have to raise the price of THE MENACE to ten or even twenty times its former price. I know of no other paper doing half the good yours is and it is glorious to read of what you and the Free Press Defense League are doing. I do not see how you do so much to help the cause and defeat wrong."

**YOUR LAST CHANCE FOR A PORTFOLIO IN THE MENACE'S LIST OF IMMORTALS**

FEW weeks ago THE MENACE submitted a proposition to its readers that until February first subscription cards in quantities of one hundred or more, good for all time, could be had at the old rate of 25c each. After February first the price will be fifty cents.

There are a hundred thousand Firing Line men who have at one time or another been instrumental in building up the enormous circulation of this paper. We asked for five thousand men who are financially able to do so without hurting themselves in any way to come to the front and buy a hundred cards at the old price. Some have responded, but many haven't. If you are one of those who haven't, then this is the final invitation to take advantage of this great opportunity, an opportunity that will not likely pass your way again.

It is unnecessary to explain to you what a wonderful impetus this will give the circulation for the year 1918 - a year in which nothing could be of more vital importance than an energetic campaign in this great movement to save America from the conquest of the Roman power.

If five thousand patriots would take advantage of this opportunity, very little work would be required

a patched-up peace that will give the upholders of the divine right and autocratic theory of government time to prepare for another similar conflict to that in which we are engaged, is undoubtedly true. And that the other remaining upholder of the "divine right" and "autocratic" theories of government, namely, the papal sovereignty, is no less anxious to secure such a patched-up, make-shift peace, is made perfectly plain by the present world-wide, vatican and hierarchal propaganda to further the interests of the German kaiser and Austrian emperor.

But to return to Senator Kenyon. On the day when the papers published this latest vatican pro-German dispatch, Senator Kenyon on the floors of the senate thus recorded his convictions:

"Those who are now trying to help bring about peace are weakening the American forces. WE ARE FIGHTING FOR A PERMANENT PEACE. Can you sit down and work out a peace problem with a mad dog?"

"When the kaiser takes his bloody hand off of Belgium and France, then it will be time enough to consider peace."

In the last three and a half years ten million men have been killed in war. Forty million, at least, are now under arms. The war is costing the world seventy-five million dollars a day and in a few years the war debt of the world will run into the trillions.

**"PRESIDENT WILSON'S WISE COURSE"** "We had a distinct American issue, the murdering of our people, the closing up of the seas. We had the opportunity to fight with the allies helping us, or fighting alone. So it was a wise choice to fight with the allies. Who can deny this now? I believe the president's course was wise. He kept us out of war as long as he could, and when at last we were compelled to go in he had virtually a united nation behind him."

**"NO TIME FOR PESSIMISM"** "It is not a time however, for pessimism. Justice somewhat delayed is on its way to triumph. Ideals are holding their place, and the world can rejoice that at least out of the turmoil of the past year one inspirational event has happened - the capture of Jerusalem from the atrocious-loving Turks. There is a firm resolve on the part of the civilized world that it never shall be returned. "Those who are now trying to help

bring about a patched-up peace and lend their influence in that direction had best remember that it will cost us more to lose this war than to win it."

"Some months ago a leading German statesman figured about eighty-nine billions as the amount that we should contribute in indemnities."

**"ISSUE WORLD-WIDE"** "There is a greater issue, however, than what might be termed merely the American issue. There is a world issue. We cannot divorce ourselves from it. We must be a part of the great world's work, whether we will it or not. Destiny places us there. There are, today, two great systems in the world struggling for the mastery - autocracy and democracy. One of the two systems must triumph. Both cannot live and flourish. To make the world safe for democracy is only half. We must make the world safe for humanity."

The most encouraging sign of the hour, is the prompt manner in which the greatest American, English and French statesmen are replying to the world-wide, more or less covert, papal propaganda by insinuation, as well as the more candid utterances of the German statesmen wherein peace is sought on grounds other than those which will render war in the future impossible.

**PERMANENT AND DEMOCRATIC PEACE ESSENTIAL** The supreme justification for America entering this world war was and is that of making the world safe for democracy. Anything short of this will make the sacrifices of precious lives, and the pouring out of American gold like rivers of water, unjustifiable. America, no less than the allies, must hold as true to her course as the mariner guided by the North Star. Never for a moment must she lose sight of the fact that the present world war is a life and death struggle between autocracy and democracy; between the cruel despotism which upholds the divine right of rulership and oppose popular sovereignty, which stands for autocracy and militarism as against permanent peace under international practical provisions, and popular sovereignty or fundamental democracy, resting on liberty of speech, press and assembly, divorce of church and state and popular or universal non-sectarian education.

statement was published and given wide currency by leading Eastern journals at the time when Charles W. Russell and several other Socialist leaders renounced this movement in the party, the statement insofar as it related to Allan Benson was incorrect, as Mr. Benson asserts that he has not left the Socialist Party. We are glad to make this correction as it has been our invariable rule during an editorial career of more than a quarter of a century to promptly seek to correct any errors that have inadvertently crept into our publications, as errors will, in spite of the most conscientious efforts, at times, get into all publications.

One university professor in a great eastern educational institution writes: "I regard THE MENACE as the most important paper published in America today." Friends this is the last week you can send THE MENACE to unwakened Protestants for forty weeks for twenty-five cents.

On February 1st the price of THE MENACE for single subscriptions will be one dollar a year. Make up a club at once at the rate of forty weeks for twenty-five cents. SEND IT TODAY. Remember this is the last week in which subscriptions will be received at this low rate. Every paper will be wrapped singly.

Keep the pope out of the peace conference by agreement and Catholics the world over will not give the allies their "whole-hearted support" says THE Tablet. And yet the Roman church isn't in politics!

**Wonderful Egg Producer** Any poultry raiser can easily double his profits by doubling the egg production of his hens. A scientific tonic has been discovered that revitalizes the flock and makes them work at the time. The tonic is called "More Eggs." Give your hens a few cents' worth of "More Eggs" and you will be amazed and delighted with results. A dollar's worth of "More Eggs" will double this year's production of eggs, so if you wish to try this great profit-maker, write R. J. Reeder, poultry expert, 871 Reeder Bldg., Kansas City, Mo., who will send you a season's supply of "More Eggs" Tonic for \$1.00 (repacked). Do not doubt Mr. Reeder's results that a million-dollar bank guarantees if you are not absolutely satisfied. Your dollar will be returned on request and the "More Eggs" costs you nothing. Send a dollar today or ask Mr. Reeder for his free poultry book that tells the experience of a man who has made a fortune out of poultry. (Adv.)

## UNANSWERABLE INDICTMENT OF VATICAN IN THE PAPER

(Continued from Page 1)

unintentionally, to the advantage of the Hapsburgs and Hohenzollerns. Against these maneuvers the entente does nothing. It neglects, once more, that powerful instrument, the press, with which to rally discouraged spirits. Italy is full of patriots with whom the patriots of France, England and America must work concertedly to break down the vast organization in every country which is trying to annul the war to the profit of the Central Powers."

Premier Orlando should ally himself with Clemenceau to denounce without hesitation, all the criminals. Moral courage is necessary among the allies to destroy without pity the men who do not believe in victory and who by no matter what kind of transactions seek to delay it."

What is true of conditions in Italy is true, measurably, elsewhere and the warning should appeal to those of all the allied nations. Every attempt of cardinal, bishop, priest, Knight of Columbus, or Roman Catholic paper or any other class or individual, to advocate the "favorable consideration" of "ANY OFFER" that the apostles of savagery, inhumanity and barbarous, autocratic despotism, may offer should be instantly frowned upon. Any demand that the kaiser's most "persistent ally and handman, Pope Benedict, should sit in the world's council to determine peace proposals, when accompanied by threats, either open or covert, should receive the prompt attention of the government. The great issue, as President Wilson has made perfectly clear, is autocracy versus democracy, and armed truce or enduring peace. Any proposition which fails to recognize these fundamental facts should be promptly ignored.

No proposition for a guilty or a patched-up peace and no threat in the interest of any sovereignty must be allowed to turn this great republic from its appointed task of making "the world safe for democracy" through a peace that shall be enduring and that shall forever destroy the blighting curse of autocratic despotism, whether advanced under the plea of "divine right" or that of a materialistic and paganistic philosophy that, in government affairs, "might makes right."

**U. S. Pays His Salary He Serves the Pope** Early in December we received the regulation postal card order from the postmaster in Spokane, Washington, ordering us to discontinue sending THE MENACE to a certain person at a certain address, with the information that the party could not be found.

We addressed a letter of inquiry to the party in question at the same address to which THE MENACE had been going, with the result that we received a letter from the subscriber stating that she had never had any trouble getting THE MENACE until the postman on that route was changed some time ago.

The former postman had told the subscriber that there was to be a change and that the new man, in his opinion, would be a K. C. She mailed: "We get all of our other mail here, and have since last July, so the trouble is undoubtedly due to the K. C. carrier."

As stated many times before, this is only a sample of Roman Catholic industry in the underground hand of papal employees in the post office service to decimate the circulation of THE MENACE insofar as possible by destructive means.

These diabolical tricks are mentioned in these columns now and then not only to show the vile methods of the enemy to work injury to THE MENACE, but for the further purpose of putting our subscribers on guard. If you have been getting your paper regularly and it suddenly stops before your subscription has expired, don't fail to write us immediately, giving all the details.

The post offices of the country are fairly honeycombed with papists and in order to combat their sinister campaign of destruction to circulation we need the active support of every subscriber in these matters.

These various cases are being taken care of in proper form and will be submitted to the department at Washington in due course of time.

In the Spokane case the spelling of the name as well as the street address of the subscriber was correct, the number was right and there all the rest of the subscriber's mail is delivered without difficulty, yet when THE MENACE is to be delivered the party "cannot be found," according to the carrier on that particular route.

What is the answer of the Spokane postmaster to this kind of trickiness on the part of carriers under his supervision?

A Protestant minister writes: "God bless THE MENACE. It is doing more for the cause of Bible Christianity and real democracy than any other I know of." Friends why not send this paper to each minister in your town or county? Remember if you send your order immediately they will receive THE MENACE for forty weeks for only twenty-five cents. Each paper securely wrapped in a single wrapper. No subscription at this rate will be received after February 1st. Will you not unite with us in the great work of making America safe for democracy by sending in a club today. Do it! DO IT! NOW!

Papal politics is part of Rome's religion. That's why those who oppose members of any political organization are called "enemies of religion" by apologists for the political machinations of the sect.

**Attention, Protestants!** The Organization Department of the GREAT SECRET ORDER, the largest Patriotic Order in the World, has none, conducting a vigorous, nationwide campaign against "making America Catholic," desires to correspond with those interested, where no organization exists.
